Attachments: FFY21_EPA_Inspection_Targets_Vetted_Updated20201029.xlsx

I tried to compile the information into one spreadsheet for any inspections or inspection targets that I know about. Let me know if I missed anything.

Best,
Amanda

That's great, Amanda. Once you have what you have, can you send to me, and we can go from there? I still want to see what MD, WV, and DE send us to see what additional ones they provide too.

Thanks.

Subject: FFY21 Q2 Targeting

Stacie,

Just wanted to give you a heads up. I'm working on compiling the feedback from the states, but it is looking pretty good. For the "new" targets that we proposed and the state didn't have concerns:

- We have 6 wastewater targets all within the Chesapeake Bay and all with at least one quarter of SNC in the least 3 years and numerous effluent violations.
- Right now we have about 8 SW Industrial targets and it sounds like more are going to be sent by a few of our states, 3 are in the Chesapeake Bay.
- So 9 total potential for Chesapeake Bay.

I think we still have a good number of targets from previous targeting round that haven't been assigned yet. We should get together and figure out our full list.

Best,
Amanda
